Ref: Mr. Robert N. Brannon

I have known Mr. Brannon as the part-time faculty member for the Computer Technology Curriculum between (1985-1989), at the Community College of Baltimore at the Harbor Campus. His full-time job was at the Department of Health and Mental Hygiene.

He is a hard working person. He enjoyed working with the students.

Over the years he stays in touch with me. During his part-time teaching, I was the Department Chair of Technical Studies, Computer Technology and Telecommunications during 1980's.

At the present time, I teach Chemistry courses at Towson University.

Sincerely,  
Shirish Shah, Ph.D.
